April 16 – 19, 2012

Monday

Overview of the Kentucky OSH Program

8:30 - 10:00 a.m.

This session discusses the obligation to provide a safe and healthy workplace, free from recognized hazards. Topics of discussion include the operations of the Kentucky Occupational Safety and Health Program, including enforcement and voluntary compliance services, and safety and health topics currently being considered for future standards and policies.

Slips, Trips and Falls

1:00 - 4:00 p.m.

This session is designed to increase the participant's awareness of hazards that could result in a slip, trip, or fall. The course also discusses methods of control to reduce the probability of a slip or fall occurring.

Tuesday

Injury and Illness Recordkeeping

8:30 - 11:30 a.m.

This session is for those persons responsible for maintaining the revised injury and illness records. The forms 300, 301, 300A will be covered. The regulations and guidelines for recordkeeping will be discussed, as well as the compliance directive the Kentucky OSH compliance officer will use to evaluate your records. A recordkeeping example workshop will be part of the course, time permitting.

Fire Safety and Protection

1:00 - 4:00 p.m.

This session introduces the participant to the recognition of potential fire hazards and emergency procedures. Topics include the chemistry of fire, types and effectiveness of extinguishing agents, means of egress, detection and alarm systems, fire brigades, fire prevention plans. 29 CFR 1910, Subparts E and L, and references to NFPA codes provide the basis for the course.

Wednesday

Confined Space

8:30 - 11:30 a.m.

This session explains the regulations regarding entry into and working in confined spaces. Topics of discussion include assessment of the confined space environment, entry into continuous system confined spaces, such as sewers, entry into closed system confined spaces, such as tanks and pits, emergency entry into all confined spaces, and training of employees.

Applied Spray Finishing

1:00 - 4:00 p.m.

This course covers spray areas and spray booths and the application of the KY OSH Program's spray finishing regulation, 29 CFR 1910.107. The course will also include discussion of the National Fire Protection Association document, NFPA 33, the national consensus standard for spray finishing. Topics covered in this session will include design, cleaning, electrical, conveyors, piping systems, ventilation, chemical use and storage, and other hazards in and around spray areas and booths.

Thursday

Lockout Tagout

8:30 - 11:00 a.m.

This session familiarizes the participant with Kentucky's lockout/tagout standard. It demonstrates the LOCKOUT and TAGOUT methods relating to the various hazardous energy sources associated with machinery, equipment, and processes used in industry. Topics addressed include training requirements, documentation required, hardware, and group lockout procedures.

Bloodborne Pathogens

1:00 - 4:00 p.m.

This session explains the measures that must be implemented to protect employees from the hazards of occupational exposure to blood and other potentially infectious materials containing bloodborne pathogens, such as hepatitis B virus, and human immunodeficiency virus. Topics of discussion include applicable definitions, infection control, engineering and work practice controls, including universal precautions, personal protective equipment, housekeeping; medical evaluations, warning signs and labels, and training of employees.
